EDUCATION

Bynet
devops course 2022
Learned my first steps in the devops field

SKILLS

K8s
Linux
Scripting
Pipelines
Docker
Networking

LANGUAGES

- Hebrew | Native
- English | Fluent

ABOUT ME

Results-driven DevOps Engineer with a proven track record of designing and maintaining robust CI/CD pipelines and cloud infrastructure. I am deeply passionate about Kubernetes orchestration, cloud infrastructure observability, and the low-level technologies that power modern operating systems. I thrive on bridging the gap between complex infrastructure and seamless operational performance.

EXPERIENCES

Devops course 2022

Bynet

- Docker: Container orchestration.
- Linux: Bash scripting.
- Jenkins: Pipeline automation.
- AWS: Cloud services.
- Networking: Theoretical/Practical.
- Data: RAID/Backups.

DEVOPS ENGINEER 2023-2024

Bynet

- Architected and tailored DevOps systems for various enterprise clients.
- Provisioned scalable K8s environments within Google Cloud Platform.
- Engineered automated pipelines using Azure Pipelines and Jenkins.
- Deployed secure GKE development environments utilizing Cert-Manager.
- Optimized FinOps by monitoring AWS CloudWatch with Slack integrations.
- Database Reliability & Disaster Recovery: Engineered High Availability (HA) architectures for PostgreSQL; designed comprehensive backup/restore protocols utilizing pg_dump and pg_restore to ensure data integrity and minimal RTO.

DEVOPS ENGINEER & INSTRUCTOR

- TRTech / Freelance 2025-2026**
- Orchestrated hands-on labs for CI/CD automation and Infrastructure as Code (IaC) using Terraform, Ansible, Docker, and Kubernetes
 - Architected and taghut a comprehensive DevOps curriculum for TRTech, instructing on the full SDLC, networking (OSI model), and cloud-native architecture
 - Led freelance migrations of legacy monolithic codebases to modern cloud-native architectures, ensuring high availability and system reliability
 - Executed FinOps optimizations for freelance clients, successfully reducing monthly infrastructure costs by 50% through resource rightsizing and architectural audits.
